FOREWORD

Playing cards were not known in Europe until about the year 1100 A.D., when a number of packs were brought back from the Holy Land by the Crusaders. In the early packs of cards, each of the suits represented one of the four social classes of the Middle Ages.

Playing cards were first brought to America by the sailors on Columbus's first voyage to the New World in 1492. Cortez, the Spanish conquistador, introduced card-playing into Mexico in 1521.

Although the design of cards has changed with the passage of time, the purpose of cards has never changed. They are still, as in the period of the Crusades, a means of playing games and of having fun—the most popular means that mankind has ever known and the most democratic.

With this purpose in mind, we, the Seniors of Benjamin Franklin High School, proudly dedicate our yearbook to all those lovers of cards who in order to play well are required to be—

SENIORS

"the King of Hearts"

In the standard card packets of the medieval period, the churchmen were represented by glowing cups, which were later turned into Hearts. These cups, or hearts, symbolized love. As the God of Love, the King of Hearts has the highest value of any court or face card in the standard pack. Likewise, our seniors—those courtly souls—not only stand at the head of our school deck but also look back with nostalgic love upon the many "tricks" which they have taken during their royal stay at Franklin.

ACTIVITIES

"the Queen of Clubs"

In medieval card games, the social class of "serfs" was represented by staves, which later became the suit, known as Clubs. These staves, or clubs, illustrated the fruitful activity of these tillers of the soil. Hence, the queen of Clubs came to be called the Goddess of Harvest. In like manner, the students, the tillers of Ben Franklin's social soil, can be proud of the godly harvest of activities which they have reaped during the 1957-1958 season.

ADVERTISERS

"the Jack of Diamonds"

The merchant class of the Dark Ages was represented by the card suit of coins, which later became the suit of Diamonds. These coins, or diamonds, exemplified the business acumen of this group. As an honor card, the Jack of Diamonds has long been known as the Prince of Fortune. Our advertisers, like the Red Jack, will always stay in the game to the last hand in their attempt to maintain, for us, that sparkling service which has made them the Prince of our good Fortune.
